**PCIM Asia Conference 2022 is scheduled to open from 31 August – 2 September at the Shanghai New International Expo Centre. Held concurrently with PCIM Asia exhibition, the PCIM Asia Conference is recognised as one of the most important platforms for knowledge exchange in the power electronics, intelligent motion technology, renewable energy and energy management sectors in Asia. The conference is now open for submissions, and industry experts and academics are welcomed to submit their latest power electronics related findings. Interested parties are encouraged to submit their abstracts by 1 March next year.**

Held in Shanghai, PCIM Asia will again gather industry professionals to showcase the latest trends and developments in the power electronics sector, covering a range of power electronics solutions and associated semiconductors, power devices, bus bars, capacitors and more. Recognised as a reputable platform, the exhibition and conference promote industry exchange and development in a professional, international and forward-thinking environment.

Attended by more than 500 professional peers annually, the PCIM Asia Conference has long been renowned as a crucial and leading conference for the industry. Professor Leo Lorenz, Chairman of PCIM Advisory Board, shared his thoughts on the effectiveness of PCIM Asia's exhibition and conference platforms to connect the regional power electronics industry, saying: "PCIM Asia offers a rewarding experience for power electronics professionals. Its trading platform allows manufacturers to present their latest products, while its high-level conference led by industry researchers inspires participants by providing up-to-date market information. Manufacturers also use PCIM Asia to create new market segments while plotting future research directions."

Electrification of Transportation Systems is one of the highlighted topics at the 2022 conference while other key topics of interest to be featured in the upcoming edition include:

- Advanced Power Semiconductors
- Packaging and Reliability
- Passive Components and Integration

Messe Frankfurt (HK) Ltd  
35/F China Resources Building  
26 Harbour Road  
Wanchai, Hong Kong

- AC/DC Converter
- DC/DC Converter
- Digital Power Conversion
- Motor Drive & Motion Control
- High Frequency Power Electronic Converters and Inverters
- Automotive Power Electronics
- System Reliability
- Power Quality Solutions
- Smart Grid Power Electronics
- Power Electronics in Transmission Systems

The PCIM Asia Board of Directors and Technical Committee will review all submitted abstracts. As in previous years, all the papers accepted will be considered for oral presentations or poster sessions, included in the official PCIM Asia Conference proceedings, as well as the widely recognised IEEE Xplore, IET Inspec Direct and Scopus libraries. ‘Young Engineer’ and ‘Best Paper’ award winners will be selected by the advisory board and technical committee and announced during the fair.

### **Looking back at PCIM Asia Conference 2021**

Successfully concluding last September in Shenzhen, the PCIM Asia Conference 2021 featured 64 presentations, covering high power devices, power converter and motion control, automotive power electronics, along with other hot topics attracted 558 onsite and 458 online visits. Professor Zhihong Wu of Tongji University of China, a member of the PCIM Asia Conference Advisory Board and an invited speaker at the Conference remarked during an interview: “PCIM Asia Conference is one of the most effective and comprehensive platforms to promote all things related to power electronics. Apart from its high-level conference platform, PCIM Asia attracts some of the industry’s biggest and most innovative brands to showcase their latest products. With the support of national policies, I am confident the power electronics industry in this region will continue to grow.”

Mr Chang Zeng, Chief Engineer of Huawei China, an attendee at the conference shared the same sentiments: “PCIM Asia Conference is an exceptional meeting ground for high-level academic exchanges and technical discussions. The convergence of industry knowledge shared by renowned brands and scholars from leading companies and renowned academic institutions provided me with a better understanding of the industry and more comprehensive knowledge of the current state of the development of technology and its future direction.”

PCIM Asia is jointly organised by Guangzhou Guangya Messe Frankfurt Co Ltd and Mesago Messe Frankfurt GmbH. To find out more about PCIM Asia, please visit [www.pcimasia-expo.com](http://www.pcimasia-expo.com) or email [pcimasia@china.messefrankfurt.com](mailto:pcimasia@china.messefrankfurt.com).

PCIM Asia  
Shanghai, China, 31 August – 2  
September 2022

The Messe Frankfurt Group is the world's largest trade fair, congress and event organiser with its own exhibition grounds. The Group employs approximately 2,450 people at its headquarters in Frankfurt am Main and in 29 subsidiaries around the world. The company generated annual sales of approximately €257 million in 2020 after having recorded sales of €736 million the previous year. Even in difficult times caused by the coronavirus pandemic, we are globally networked with our industry sectors. We have close ties with our industry sectors and serve our customers' business interests efficiently within the framework of our Fairs & Events, Locations and Services business fields. One of the Group's key USPs is its closely knit global sales network, which extends throughout the world. Our comprehensive range of services – both onsite and online – ensures that customers worldwide enjoy consistently high quality and flexibility when planning, organising and running their events. We are expanding our digital expertise with new business models. The wide range of services includes renting exhibition grounds, trade fair construction and marketing, personnel and food services. Headquartered in Frankfurt am Main, the company is owned by the City of Frankfurt (60 percent) and the State of Hesse (40 percent).
